

Dear member of the regulated community:

The Missouri Department of Natural Resources' Air Pollution Control Program (APCP) is proposing changes to both the Asbestos Occupation Certification Application and the Asbestos Occupation Certification Renewal. In addition, the APCP has begun the process to issue laminated, photo identification cards in addition to full-page certificates.

State rule 10 CSR 10-6.250, "Asbestos Projects--Certification, Accreditation and Business Exemption Requirements," requires any revision to the department supplied application form to be presented to the regulated community for a 45-day comment period. The revised forms and an example photo identification card are available for viewing at:

<http://www.dnr.mo.gov/env/apcp/Asbestos.htm>

If the Internet is unavailable to you, copies of the proposed forms are available by request. We plan to apply these revisions in the near future. We feel these are changes industry will welcome, but would appreciate your comments or questions.

Please reply no later than _____.

Please forward all comments or questions that you may have to the Asbestos Enforcement Unit of the APCP at P.O. Box 176, Jefferson City, MO 65102 or by phone at (573) 751-4817.

Thank you,

AIR POLLUTION CONTROL PROGRAM
